**A Hearty Blend of Healthful Benefits**

ADM now offers a vegan/vegetarian option containing both the important nutrients DHA and EPA, typically found in fish oil supplements. This algal oil blend of Onavita™ Algal DHA and Qualitas Health Almega® PL EPA supports cognitive, heart and eye health, while pleasing consumers with plants and the planet on their minds.

**A MYRIAD OF OMEGAS**

Consumers have their hearts, minds and sights set on better health, and often prefer using foods and beverages to help achieve it. **Featuring omegas 3, 6, 7 and 9, our algal EPA/DHA blends**¹ give you more of what consumers want in terms of functional ingredients—without the fish. These unique blends are suitable for vegans and vegetarians, and appeal to the environmentally conscious as well.

*Made possible through a collaborative agreement between ADM and Qualitas Health

**ALGAL EPA/DHA BLENDS**

844-441-FOOD | food@adm.com | adm.com/food
All of the Benefits, None of the Fish

Algal EPA/DHA blends have all of the benefits of fish oil, without any of the drawbacks: no problem for vegans/vegetarians, no fishy aftertaste in supplements, and no negative environmental impact caused by overfishing.

EPA AND DHA: A DYNAMIC DUO

EPA helps manage cellular inflammation. Chronic inflammation is associated with poor health.

DHA is a naturally occurring substance found throughout the body and concentrated in the brain, eyes and heart. It contributes to healthy nervous system development and function throughout all stages of life.

AT-A-GLANCE BENEFITS

Sustainably sourced in the USA

Help support cognitive, heart and eye health

Associated with helping to support healthy development and aging

No fishy aftertaste in supplements

Clean and clear-label friendly; non-GMO

Algal and suitable for vegans/vegetarians

Vertically integrated supply chain
What Makes Our Algal EPA/DHA Blends Unique

Our algal oil blend of Onavita™ Algal DHA and Qualitas Health Almega® PL EPA offers omegas 3, 6, 7 and 9, all supported by an innovative and reliable partner who can help optimize taste, texture, nutrition and function in your supplement, food and beverage products.

VERTICAL SUPPLY CHAIN ELEVATES YOUR BUSINESS

By growing the algae and controlling its production throughout the process, we create a high-quality, consistent supply of an unmatched algal EPA/DHA with availability you can rely on. Add our formulation and flavor expertise, and we are a business partner who can assist you every step of the way.

THE EXPERTISE TO ACHIEVE GREAT TASTE

When it comes to many nutritional ingredients, flavor can be a bit of a challenge. We have the flavor and masking expertise to help you clear any hurdles on your way to supplements, foods and beverages consumers will love. With our own flavor house and an abundance of know-how, we’ve got a real taste for good flavor.

44% of consumers want to increase their intake of omega-3s
