

Source Material Statement

049000 EVO-100™ USP-NF/FCC Propylene Glycol (Excipient/Food Use Only)

049010 USP-NF/FCC Propylene Glycol (Excipient/Food Use Only)

051000 USP-NF Glycerin – Excipient/Food Use Only

Archer Daniels Midland Company (ADM) produces its USP-NF/FCC Glycerin through a multi-step refining process of crude glycerin derived from any combination of the listed refined oils:

- Canola Oil (source beans: *Brassica napus*, *Brassica campestris*, and/or *Brassica juncea*)
- Corn Oil (source corn: *Zea mays*)
- Cottonseed Oil (source seed: *Gossypium hirsutum* and *Gossypium herbaceum*)
- Soybean Oil (source bean: *Glycerine max*)
- Coconut Oil (source: *Cocos nucifera*)
- Refined Glycerin will not be sourced nor derived from palm oil and therefore will not contain palm oil.

Refined oils are primarily sourced from North American seeds.

There are no enzymes used to manufacture the products listed below.

There are no additives used to manufacture the products listed below.

There are no microorganisms used in the manufacture of the products listed below.

All processing aids are chemical sourced and not animal, microbial, or plant sourced.

Further processing will convert the refined glycerin to Propylene Glycol products.

If you have any questions, please do not hesitate to contact ADM Technical Services.
